College and Career Information:

- The National Youth Science Camp will be held this summer from June 27 through July 21. Two high school seniors from each state will receive a full scholarship to exchange ideas with scientists and other professionals from academic, governmental and corporate worlds. The nearly month-long experience includes lectures and hands-on research projects presented by scientists from across the nation; overnight outdoor trips into the Monongahela National Forest; and a visit to Washington D.C. The selected delegates must not only demonstrate academic achievement in science, but also show potential for thoughtful scientific leadership. The NYSCamp experience is offered at no cost to its participants, so that selected delegates may attend regardless of their financial status. Contributions to the National Youth Science Foundation allow delegates to participate in this "once in a lifetime" experience. Educational and recreational programming, as well as meals, lodging, and round-trip air travel are provided free of charge. Delegates arrive in Charleston, West Virginia, on Wednesday, June 27, and depart on Saturday, July 21, 2018. The NYSCamp is held near Bartow in the eastern mountains of West Virginia, within the Monongahela National Forest.
